Year 3 Home Learning week beginning 15th June 2020

Remember we are in school most of the week with Year 6 and so there will be much less contact on Dojo. We will still check in every day but won't have the time to respond individually to posts or work.

Please find below a list of activities for this week. Remember to just do what you can and to spread them out over the week so that you are doing some school related work each day as if you were in school.

RE – The Kingdom of God

This week we are starting our new topic on the Kingdom of God. Over the next few weeks we will be exploring some of Jesus's parables and how we can bring the Kingdom of God to earth. Parables are special stories Jesus told in order to teach us something important.

Parables work by comparing something to something else. In the following parables, Jesus compares the time of God's reign (kingdom) to something very ordinary from everyday life.

Task 1:

Read through Matthew 13:24 - 33 and 44 – 47 (see link on the year 3 learning page). Find and highlight every time you see the phrase 'Kingdom of heaven.'

Matthew says that Jesus told us this group of parables to make us think about a special time – an ideal time when God would be in charge of everything in the world and we would all live together just as God had dreamed we would. Some people call this time 'God's dream', other people call it 'God's rule', some call it 'God's reign' (because they think God will 'reign' like a magnificent king). Matthew calls this time the 'Kingdom of Heaven.'

Task 2:

Draw a picture of what you think the Kingdom of Heaven would be like. Write a paragraph explaining your picture and what you think the Kingdom of Heaven would be like. Who would be there? How would people behave? What would be different compared to life on earth?

Maths – Mystery and Fractions revision

This week we would like you to try and solve 'The Mystery of The Missing Sacks on Sports Day' Do this over 2 or 3 days. The mystery is on the Year 3 learning page.

On BBC Bitesize this week, they are still continuing to focus on fractions, so please carry on with this.

Maths	Maths	Maths	Maths
Ordering fractions	Adding fractions with the same denominator	Subtracting fractions with the same denominator	Problem-solving with addition and subtraction of fractions

Times Tables - Hit the Button
Please continue to work on your times tables.
https://www.topmarks.co.uk/maths-games/hit-the-button

Spellings – homophones
Watch:

English – Tasks

Day 1: https://www.pobble365.com/magical-eggs

For this picture we would like you to answer the Question time section and the sentence challenge.

Day 2: Using a dictionary

https://www.bbc.co.uk/bitesize/articles/zmy3rj6

Day 3: Using a thesaurus

https://www.bbc.co.uk/bitesize/articles/zh2xhbk

Day 4: https://www.pobble365.com/dragonworld/

Look at the picture. Read the story starter. Then looking at the sentence challenge which will make you think about similes, please write some more of the story. Remember the skills you have learnt about using a dictionary and a thesaurus. Use these to improve your work.

Reading – Comprehension
We would like you to read about Mo Farah and answer the questions. There are three levels of text and questions for you to choose from. You will find the PDF on the Year 3 learning page.

History – The Olympic Rings
This week we would like you to find out the history behind the Olympic rings. You can present this in any way you would like to. You might decide to make a poster, a booklet, a PowerPoint or even a recording.

PE – Daily
Try to get a little exercise daily. Maybe continue some of your Olympic games ideas or make up new ones. Also, Karen put up some London Youth Game tasks on Dojo – take a look and get involved.

Art – Design
We would like you to design a mascot for your own Olympic Games and also redesign a new logo. There are sheets to help you on the Year 3 learning page.

Science – States of Matter
Over the coming weeks we are going to be learning about rivers in the UK and the different parts of rivers. In light of this, we think it would be useful for you to have a basic understanding of states of matter and the water cycle. You will revisit these in depth in year 4 so we are only going to touch on these briefly.

Follow these links to watch some short videos, read some helpful information and complete the quizzes on bitesize:

. What are the states of matter?
https://www.bbc.co.uk/bitesize/topics/zkgg87h/articles/zsgwwxs

. What are freezing and melting?
https://www.bbc.co.uk/bitesize/topics/zkgg87h/articles/z9ck9qt

. What is evaporation and condensation?
https://www.bbc.co.uk/bitesize/topics/zkgg87h/articles/zydxmnb

Computing – E-safety
Friday's lesson on BBC Bitesize for computing is all about keeping our technology safe from viruses. We are all using technology a lot more than before so it is worth taking part in this lesson.

Enjoy your week

Mrs Duffy and Miss Sterlini
